Graduating seniors will be extended a grace period and allowed to compete in the summer months once their senior year has been completed. They will not be allowed to fish in any events that are qualifying for the next calendar school year.

B.A.S.S. reserves the right to deny any Coach.

5. Spirit / Intent
 - a. The intent of this series is for the youth anglers to have a means of local competition events and to be exposed to the ever-changing conditions and techniques that surround tournament bass fishing. These events will allow boat captains the opportunity to educate young anglers about the many variables associated with the competition, such as lure selections, patterns, methods, fish care, and camaraderie among their competitors.
 - b. The boat captain is needed to operate the boat while the combustion engine is running and ensure proper safety measures are used. At no time can the youth anglers operate the combustion engine during competition. However they may operate the combustion engine during loading and unloading of the boat at the ramp, provided that all NC boating guidelines are followed.
 - c. The boat captain may operate the trolling motor if needed, but should use these events as a method for preparing youth to do so on their own as the youth will be required to do so during state or national level competitions.
 - d. The boat captain must allow the youth anglers to net their own fish except under the following conditions:
 - a. Any team not yet in high school (8th Grade & Under) may request the assistance of the boat captain for netting a fish.
 - e. The boat captain must allow the youth anglers to make their own casts and retrieve their own lures.
 - f. The boat captain may assist with lure selection, but every opportunity to allow the youth anglers to make their own decisions about these selections should be granted as the youth may be required to do so during state or national level competitions.
 - g. The boat captain may assist with removing or retrieving a snagged lure.
 - h. The boat captain may assist with the removal of fish from the hooks.
 - i. The boat captain is requested to assist with the culling of fish to help ensure proper fish care and handling.
 - j. If the boat captain is assisting with the retrieval of a snagged lure, the removal of a fish from the hooks, or the culling of fish, then only one of the anglers can continue fishing until these processes are complete, just as if one of the youth anglers were completing any of these processes on their own.
